Web e Mobile App Developer

Unità Formativa: Programmazione web - HTML e CSS

Docente: Shadi Lahham

Titolo argomento: Esercizi unità 06-09

Aim

Complete all the exercises from units requested above (except the optional ones)

Requirements

make sure css files are in a folder called /style

submit one (1) zip file with all your exercises

name the file using your number-firstname-lastname.zip, for example 05-mario-rossi.zip

Compatibility

The projects should be tested and work properly on: Chrome, Firefox, IE11

Compatibility with other browsers is a nice bonus

Documentation and validation

Comments and code documentation

- All HTML and CSS files should contain comments and be well documented

- CSS files should have a header and contain comments where needed

- HTML files should be complete and contain comments to indicate important sections

- Follow all the comments and documentation requirements in Appendix 01

Validation

HTML files should be validated https://validator.w3.org/

CSS files should be validated https://jigsaw.w3.org/css-validator/

Readme

Include a readme.md file that includes at least the following sections

- author details

- exercise requirements

- approach to solution
